

VERSE 1

On a hill you shed your blood
On a hill we have seen your love
For the light of the world on a cross was lifted high
To build a city on a hill

VERSE 2

On a hill "It is done!" you cried
Holy justice was satisfied
Now we're stones you have cut out of death and given life
To build a city on a hill

CHORUS

Hallelujah! Christ is risen, we're alive
Hallelujah! We shine
And the darkest corner will be filled with light
We are your city on a hill

VERSE 3

From that hill you rose on high
Through the clouds to the Father's side
Then your Holy Spirit came with empowering tongues of flame
To build your city on a hill

BRIDGE (x4)

Light of the world, let it shine, let it shine
O Light of the world, let it shine

CHORUS

Hallelujah! Christ is risen, we're alive
Hallelujah! We shine
And the darkest corner will be filled with light
We are your city on a hill
We are your city on a hill
We are your city on a hill
